Create a Job with Five Talents

How It Works:

Five Talents operates loan programmes around the world and will invest your money in the project of your choice. We will send you a special card featuring the project and an example client. You can choose the amount that you wish to donate (minimum £10) which will contribute to a small loan in one of our projects.

Loans are repaid and re-loaned over and over again, so your gift will have a lasting impact - building a small business and sustaining and creating jobs. Our local staff provide business training and support for the people on their journey out of poverty. And remember - someone with a job usually supports 4-6 other people, so the impact is huge.
